## **MHS HEADMISTRESS SPEECH ON OCCASION OF 25<sup>TH</sup> ANNIVERSARY OF PARTNERSHIP BETWEEN MWANGA HIGH SCHOOL AND HUMBOLDTSCHULE**

Dear Headmaster Mr. Holger Irnich,  
Dear teachers, parents and students of Humboldtschule  
Dear Mwanga club members and invited guests  
Ladies and Gentlemen,

I would first like to congratulate the Governing bodies, the staff and the students of our two schools on the celebration of this Golden Jubilee. Gold has been exemplary of purity and excellence since the immemorial time and I am very happy to be part of this excellent cooperation between our two schools.

To all students, teachers, supporting staff and parents present in the auditorium, I would like to say that you are the proud inheritors and flag bearers of a wonderful sustaining and reinvigorating cooperation between our two schools. As you understand the goal of this cooperation of its kind is to build indestructible bridge of universal values between our two nations. In these 25 years of partnership the important lesson we have learned is that cooperation not just give one a chance to improve what they have but also it provides them with an opportunity to gain a new experience.

Dear Headmaster,

As we continue to strive for success and fulfillment in this journey, it is only fair to remember those who beat all odds in order to initiate this cooperation. I would like, in special way, to remember the late Ulrich Nolte, the former HUS headmaster and Eliet Senkoro, the former MHS headmaster. Typical of all founders, these two gentlemen laid a solid foundation for cultural dialogue between MHS and HUS. Indeed it was because of their effort that today we are able to celebrate this day as members and friends of the same family.

During these 25 years a lot has been achieved; exchange visits between students of two schools have been strengthened. The students of the two schools use this platform to exchange ideas and above all they use it to learn and appreciate positive cultural values of each other. Furthermore this cooperation has also brought academic and structural developments. For example at MHS scientific laboratories were refurbished and teachers participated in series of academic seminars in order to improve teaching methodology. Undoubtedly these important additions have brought meaningful improvement on the school overall academic results.

Dear Headmaster

I would like to end my short speech by acknowledging the effort of the two institutions namely Mwanga Club and PROBONO School partnership for One World. Their involvement in this cooperation has been the true catalyst of development at MHS. Indeed during these 25 years these two institutions have provided education opportunities for many young people from low income families.

In summary, we can say that the celebration of 25 years of our partnership is a moment of reflection while jostling our effort to do better in the future.

Mena Kengera

HEADMISTRESS MWANGA HIGH SCHOOL

16<sup>TH</sup> June 2021
